	2	[ICF]	INFORMED CONSENT FORM FOR ONLINE COLLECTION You are being invited to participate in the research entitled "ANALYSIS OF THE CONSEQUENCES OF THE COVID 19 PANDEMIC FOR NURSES IN BRAZIL" under the coordinated by Professor Dr. Elucir Gir. The objective of the research is to analyze the consequences of COVID-19 among Brazilian nurses in the years 2020, 2022 and 2023. Type of Participation: If you agree to participate in the survey, you will need to have access to the internet to answer the questionnaire for this survey. The survey has personal questions, related to facts that can generate stress, anxiety, mood swings, sleep patterns in general, etc. The filling time will be approximately seven minutes. In addition, after this initial data is collected, an intervention will take place with the participants of this research that will take place in a second moment, four months after the current date. Regardless of the answer, you will not have any kind of loss. Likewise, you can withdraw from participating in the survey	descriptive (Attachment: TCLEENF REDCAP.pdf, Display format: Link)

at any time. Risks: regarding the risks, we emphasize that you may feel uncomfortable with your participation, as you may have unpleasant memories when answering the survey questions, because in addition to being of a personal nature, they deal with a current issue that causes negative consequences for nurses around the world. However, it should be noted that your participation may be interrupted at any time without any prejudice to you. Risk Management: Regarding risk management, initially the participant can interrupt participation at any time, if discomfort, unpleasant memories or any other situation that harms him as a result of his participation occurs, and, if he wishes to continue, he can return to the link and continue the answers. In addition, the participant may contact the research team through the contacts provided in this document. The research team will be ready and available to listen to the reports, analyze them and provide individual guidance on ways to cope with discomfort and damage. In addition, if necessary, the research team will guide the participants and may refer them to the nearest health services. In this way, the management of risks will be carried out by the research team that includes nurses and psychologists. Risks characteristic of the virtual environment: We emphasize that, because this research is in a virtual environment, the researchers have limitations to ensure total confidentiality and potential risk of breach. Therefore, there are risks related to the confidentiality of the information provided by the participant. However, to reduce the risk of data breaches, your data will be stored in REDCap, a web-based application for online survey management that has settings and tools that enhance the security capacity in the storage of information. In this way, researchers have this tool that increases data storage security. Benefits: You can benefit from access to information about the consequences of COVID-19 among Brazilian nurses. In addition, this research may contribute to the results for health institutions to plan interventions to reduce the negative effects faced by nurses. The project presents

potential to contribute to the strengthening of actions to cope with this pandemic as well as the consequences that will be present in terms of the physical and mental aspects of nurses, even after its end, with emphasis on the diagnosis and analysis of the physical, psychological and social effects resulting from coping with the COVID-19 pandemic, experienced in direct health care. In addition, the project has the potential to produce evidence that can be used by health managers to implement intervention actions to reduce damage to the health of nurses. In addition, the data will constitute an important mental and physical health diagnosis of Brazilian nurses that can be used by different agents to activate changes: health managers; nursing team coordinators; higher education institutions and class entities.
