

INSTRUCTIONS

This questionnaire contains items related to certain psychosocial issues.

Please read them carefully. All the items have a few response alternatives. You may endorse more than one response alternative for an item. There is no right or wrong answer.

We sincerely appreciate your time and willingness to engage with this survey. This study is part of a thesis on Post Traumatic Growth and it seeks to explore the psychological challenges people during their childhood, the ways in which they cope, and the barriers they may encounter during their coping process.

Your participation is **entirely voluntary**. You are free to choose whether to take part in this survey, and you may skip any question or withdraw at any point without any consequences. All responses will remain **confidential** and will be used solely for academic and developmental purposes.

The survey includes a mix of multiple-choice and open-ended questions and should take approximately **5–10 minutes** to complete.

Thank you for considering being a part of this important conversation.

.....

Name	:
Age	:
Sex	:
Educational Qualification	:
Marital Status	:
Duration of marriage	:
Mother Tongue	:
Languages Known	:
Religion	:
Family Type	: Nuclear / Joint / Extended
Family Income (per month)	:
Number of Children / Dependent	:
Suffering from any physical illness? Yes / No	

If yes (please specify) :
Residence : Urban / Suburban / Rural
