

## Supplementary

**Table S2** – Performance of line regression using restricted cubic splines measured in Area Under the Curve (AUC) by stratification of sex and education level

	Stratification of sex		Stratification of education level	
	Boy	Girl	Low education <sup>1</sup>	High education <sup>2</sup>
Language skills	0.512	0.519	0.511	0.512
Motor development	0.517	0.515	0.515	0.520
Perceived general well-being	0.518	0.510	0.507	0.515
Perceived school well-being	0.513	0.517	0.516	0.511
Parent-child relationship	0.509	0.515	0.516	0.517
Health nurses' observations	0.509	0.509	0.509	0.509
Peer relationships problems	0.514	0.509	0.515	0.518

<sup>1</sup> Primary and lower secondary education, vocational education and training, general or vocational upper secondary education

<sup>2</sup> 3 years or more at university
