

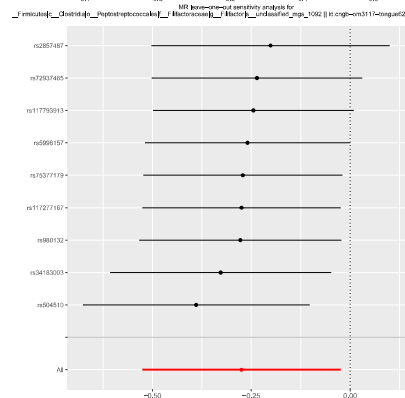

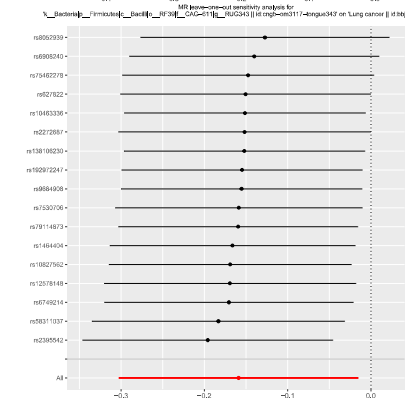

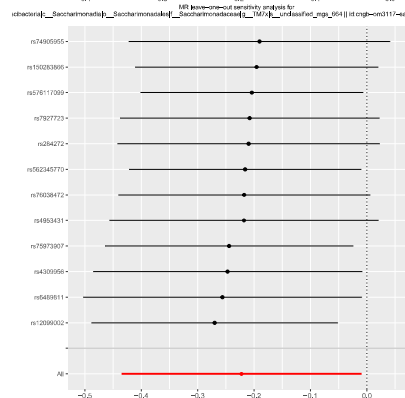

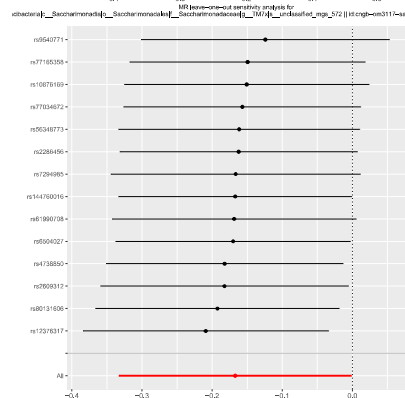

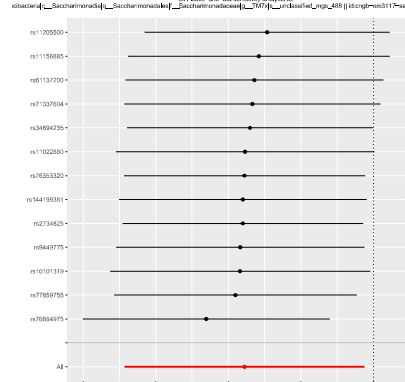

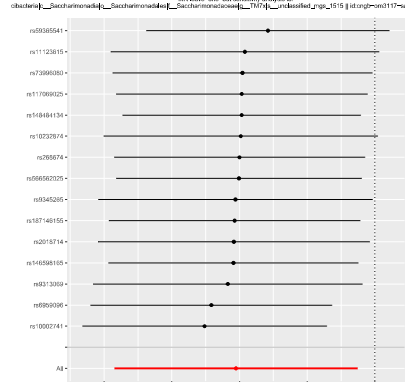

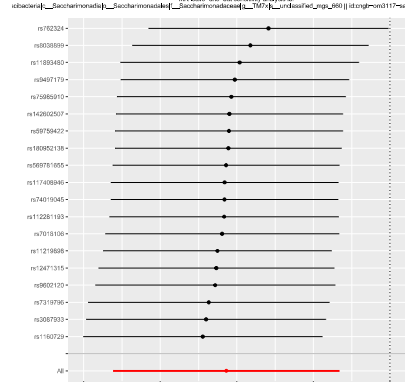

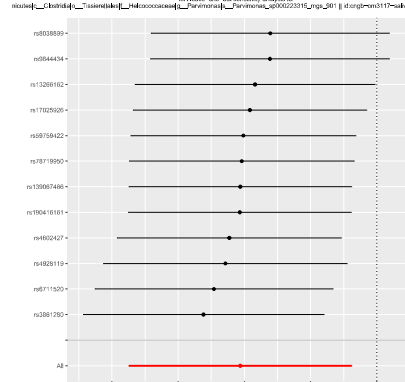

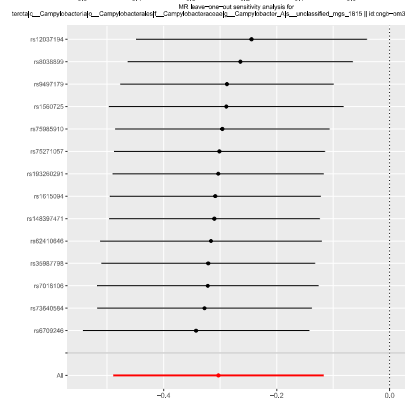

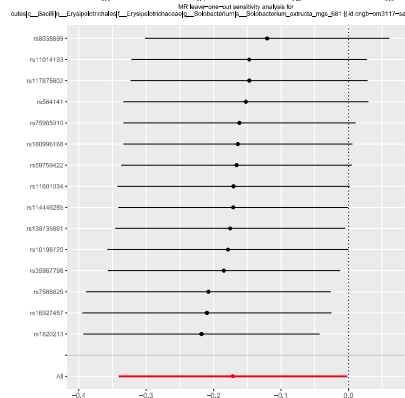

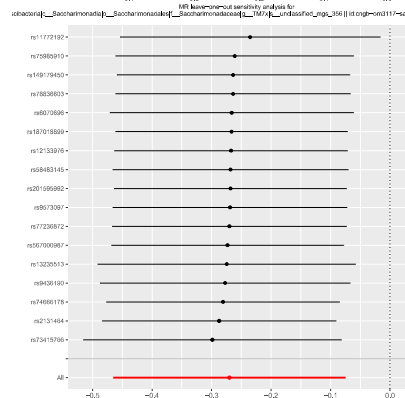

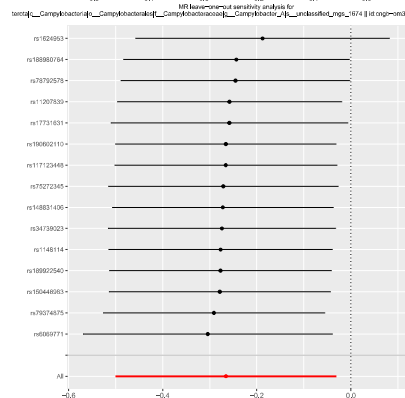

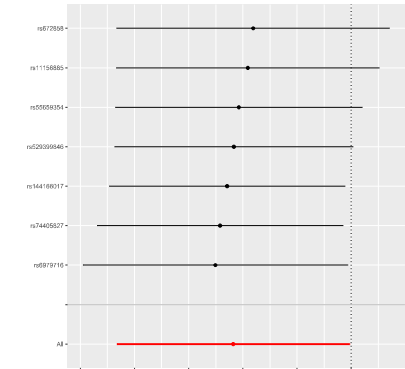

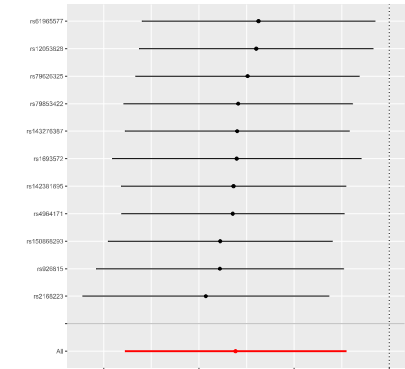

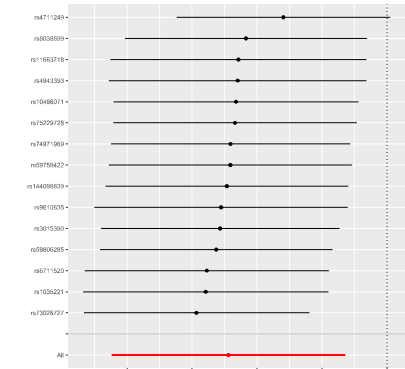

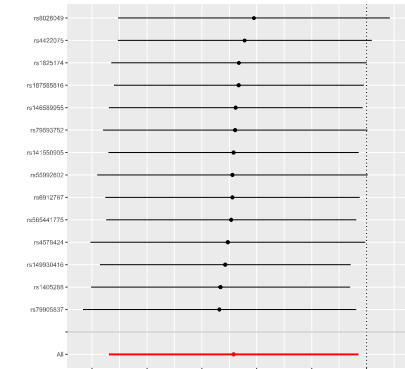

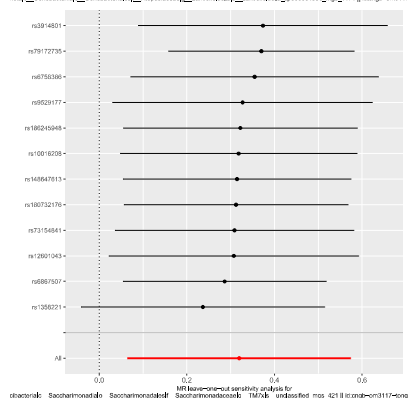

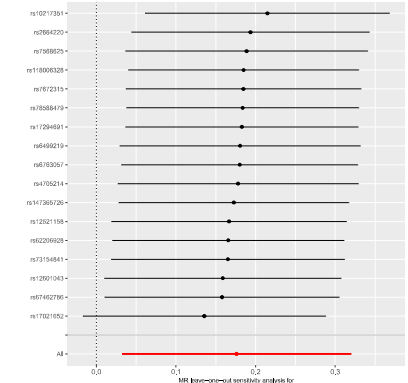

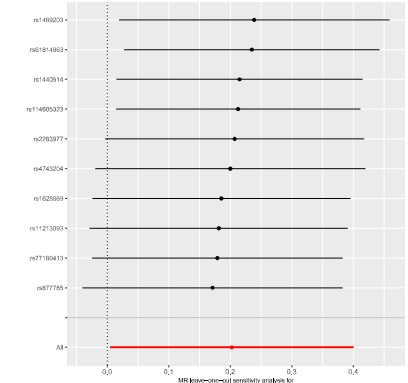

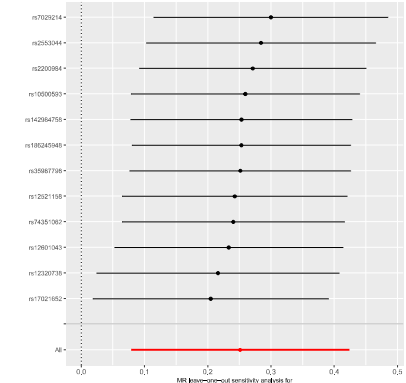

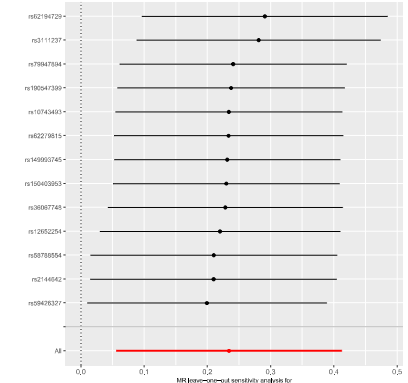

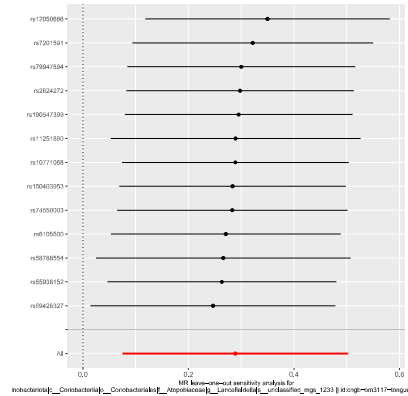

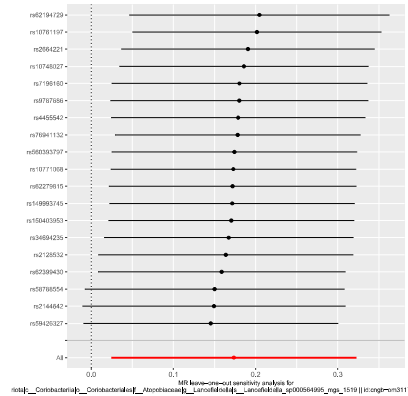

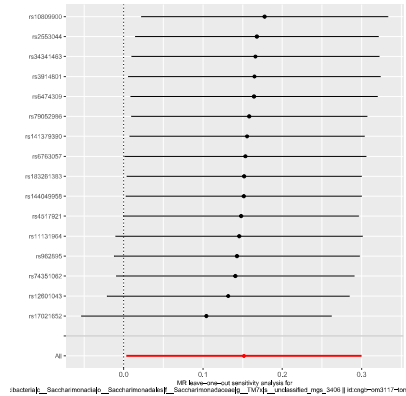

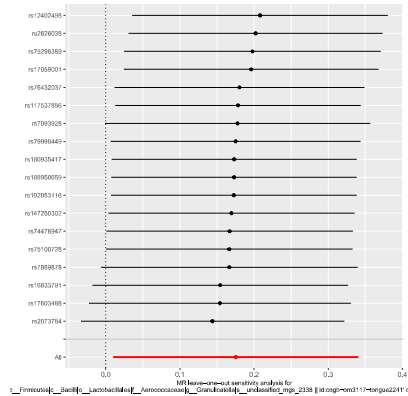

Figure S1 Leave one out sensitivity-analysis plots of the relationship between oral/gut microbiota and lung cancer.

Forest plot showing the association of rs3814801 with the outcome. The plot displays a point estimate (black dot) and a 95% confidence interval (horizontal line). The x-axis represents the odds ratio (OR) on a log scale, ranging from 0.0 to 0.6. A vertical dashed line indicates the null value (OR = 1.0). A red horizontal line at the bottom indicates the overall pooled effect size.
