

Informed Consent Statement

(English Version)

Dear Colleague,

You are invited to participate in a multi-centre study designed to assess current levels of nurses' competence in intravenous therapy and to inform the development of evidence-based training and assessment standards for intravenous catheter care. The survey will take approximately 8-10 minutes to complete. All responses are anonymous and strictly confidential; no personally identifiable information will be collected. Participation is voluntary, and you may withdraw at any time without consequence. By selecting "I agree" and proceeding to the questionnaire, you provide your electronic informed consent. If you have any questions, please contact us[Email Address: songli2022@gzucm.edu.cn]. Thank you for your support.

Do you agree to participate in this survey?

☐ Yes

☐ No(Exit the questionnaire survey)
