to me, Donald, Philip

Juhaina, Thank you for your update regarding the secondary manuscript utilizing a subset of participants from the originally licensed dataset under Certificate Number: 1350. I can confirm that since this data is a subset of the original dataset, a new license is not required. The only requirement is to ensure that the scoring algorithm for the MMSA-8 tool is not divulged in the manuscript or any related materials.

We appreciate your diligence in maintaining compliance with the inclusion of appropriate citations and the required intellectual property legend. Thank you for submitting the necessary documentation as advised.

Please let me know if you need further clarification or assistance as you proceed with the manuscript.

Best regards,

Marty

That is great news.

I confirm that the scoring algorithm for the MMSA-8 tool is not divulged in the manuscript or any related materials.

We can now proceed with our submission plan.

Much appreciated

Salam Prof. Mohammed

Great that we were able to waive the payment to Morisky and a retroactive license is no longer needed.

Now we can proceed with publication safely. We need not to forget to mention Certificate Number: 1350 in both manuscripts.

Thank you

Juhaina

Walikum Asalam Juhina

Good news.

I have not heard from Iman regarding the manuscript yet.

Hopefully it is ready before the end of this month for collaborator review and submission Inshallah.

Regards,

...

That's great news!

Thanks for the update.

I hope so too.
