

**Important information. Please read.**

- This form should be used by authors to request any change in authorship (adding/deleting authors) including changes in corresponding authors. This form should not be used for name changes. Please fully complete all sections. Use black ink and block capitals and provide each author's full name with the given name first followed by the family name.
- By signing this declaration, all authors guarantee that the order of the authors are in accordance with their scientific contribution, if applicable as different conventions apply per discipline, and that only authors have been added who made a meaningful contribution to the work.
- Please note, in author collaborations where there is formal agreement for representing the collaboration, it is sufficient for the representative or legal guarantor (usually the corresponding author) to complete and sign the Authorship Change Form on behalf of all authors, **next to the added/removed author(s).** (**Complete Section 3, followed by Section 6.**)  
In author collaborations where there is no formal agreement for representing the collaboration and **there are more than 10 authors**, one may sign for all, provided the signer appends correspondence that attests that each of the authors have agreed to the change **and the added/removed authors sign the form.** (**Complete Section 3, followed by Section 6.**)
- Please note, we cannot investigate or mediate any authorship disputes. If you are unable to obtain agreement from all authors (including those who you wish to be removed) you must refer the matter to your institution(s) for investigation. Please inform us if you need to do this.
- If you are not able to return a fully completed form within **30 days** of the date that it was sent to the author requesting the change, we may have to withdraw your manuscript. We cannot publish manuscripts where authorship has not been agreed by all authors (including those who have been removed).
- Incomplete forms will be rejected.
- Please return/upload this form, fully completed, to the Journals Editorial Office. The Journal and/or Publisher will consider the information you have provided to decide whether to approve the proposed change in authorship. We may decide to contact your institution for more information or undertake a further investigation, if appropriate, before making a final decision.

## Section 1: Please provide the current title of manuscript

2 <sup>nd</sup> author	Rabindra Nath	Padaria	NA
3 <sup>rd</sup> author	Aiswarya	S	NA
4 <sup>th</sup> author	Sweety	Mukherjee	NA
5 <sup>th</sup> author	Bhaskar	Gosh	NA

Please use an additional sheet if there are more than 10 authors.

Section 3: Please provide a justification for change. Please use this section to explain your reasons for changing the authorship of your manuscript, e.g. what necessitated the change in authorship? Please refer to the (journal) policy pages for more information about authorship. Please explain why omitted authors were not originally included and/or why authors were removed on the submitted manuscript.

The proposed change in authorship is to include members of my advisory committee who significantly contributed to my research during my M.Sc. Programme. They provided consistent guidance, critical feedback, and valuable support at various stages of the research process. Unfortunately, due to a technical issue during the initial manuscript submission, their names were inadvertently omitted from the authorship list.

This omission was unintentional and does not reflect the genuine contributions they made. In accordance with Springer Nature's authorship policies, which emphasize accurate acknowledgment of all individuals who meet the criteria for authorship, we are correcting this oversight to ensure proper credit is given.

We sincerely request the journal to approve this change so that the final version of the manuscript accurately reflects the contributions of all involved.
