Checklist for Skin Problems in Patients with Spinal Cord Injury

Instructions and Consent

This questionnaire is designed to study skin problems that occur as a result of spinal cord injury. For each question, if your answer is yes, please specify how long it has been since the problem started.

By completing this questionnaire, you agree to participate in this study. Your information will be kept confidential and will only be used for research purposes.

If you are unable to complete this questionnaire independently, you may ask for help from your caregiver or doctor.
