Default Question Block

Consent: Your participation is voluntary for this two minute survey. This is an **anonymous** survey and we will not collect any clear identifiers like your name or address.

Alice Qian, MS3

Kevin El-Hayek, MD, MBA, FACS, Associate Professor of Surgery

Case Western Reserve University School of Medicine

If you **consent** to take part, please continue to the **eight question** survey. If you do **not** consent to taking part, please exit your browser window.

What services were you on for core rotation?

- ☐ EGS/ACS
- ☐ Vascular
- ☐ Blue Team (Surgical Oncology/Minimally Invasive/Bariatric Surgery/Endoscopic Surgery)
- ☐ Green Team (Colorectal/Endocrine/MIS)

Please rate from a scale of 1-5 your satisfaction of scrub in frequency during your core rotation.

- ☐ 1- extremely dissatisfied (not enough)
- ☐ 2- dissatisfied
- ☐ 3- just right/neutral
- ☐ 4- a bit much for comfort
- ☐ 5- too much

How many times did you scrub in on average per week?

1 2 3 4 5 6 7 8 9 10

Times

Check if these applied to your participation in your core rotation:

- ☐ Scrubbed 10+ times per week at times

- ☐ Limited and dissatisfied involvement when scrubbed in (for example: just port site closure)
- ☐ Scrubbed in on weekends
- ☐ Scrubbed in almost daily

Interest in surgical specialty **before** surgery rotation:

0 1 2 3 3 4 5

0- not at all, 5- only
something surgical

Interest in surgical specialty **after** surgery rotation:

0 1 2 3 4 5

0- not at all, 5- only
something surgical

Lastly, please check any OTHER factors that increased or decreased your interest in surgery after your core experience:

- ☐ Faculty engagement
- ☐ Resident engagement
- ☐ OR atmosphere
- ☐ "Pimping" or intraoperative assessments
- ☐ Work hours
- ☐ Patient population/pathology
- ☐ Feedback/performance in rotation
- ☐ Shelf/learning materials
- ☐ Curriculum Didactics
- ☐ Hospital resources
- ☐ Wellness/lifestyle
- ☐ Types of surgical operations viewed/involved in

Any other comments:
