

Questionnaires regarding Molar Incisor Hypomineralization(MIH)

Your honest answers about (MIH) are highly appreciated as we will base our analysis on them.

* Required

Participant Profile:

1

Gender: *

☐ male

☐ female

Awareness, Knowledge and perception

2

Are you familiar with MIH? *☐ Yes☐ No

3

If yes, How did you learn about it? (Multiple answers are possible).☐ Dental journals☐ Lecture notes☐ Brochures or pamphlets☐ Internet☐ Books(printed or electronic)☐ Dental clinic/clinical courses☐ Other (please specify):-----

4

Have you been aware that MIH is a developmental defect that differs from fluorosis and hypoplasia? *☐ Yes☐ No

5

In your best judgement, how prevalent is MIH in your community? (One answer is possible).

*

- ☐ <5 %
- ☐ 5-10%
- ☐ >20 %
- ☐ Not sure

6

Which factors do you think are involved in the etiology of MIH? (Multiple answers are possible).

*

- ☐ Genetic factors
- ☐ Environmental contaminants
- ☐ Acute medical conditions affecting the mother or her child.
- ☐ Chronic medical conditions affecting the mother or her child.
- ☐ Antibiotics or medications
- ☐ Fluoride exposure

7

When do you think this insult has happened?

*

- ☐ During pregnancy
- ☐ 1st year of life
- ☐ 3rd year of life
- ☐ Pregnancy to 1st year of life
- ☐ Pregnancy to 3rd year of life

8

Do you think that the pattern of caries related to MIH is different from the classical caries pattern? *

- ☐ Yes
- ☐ No
- ☐ Not sure

Perception, clinical experience, continuing education

9

Do you know if there are clinical criteria to diagnose MIH? *

- ☐ Yes, and I know how to implement them.
- ☐ Yes, but I do not know how to implement them.
- ☐ No

10

As a clinician, do you feel prepared enough to diagnose a patient with MIH? *

- ☐ Yes, in the initial and advanced stages.
- ☐ Yes, only in the initial stages.
- ☐ Not (continue with the last question)

11

How confident do you feel when diagnosing a patient with MIH? Choose one option. *

- ☐ Very confident
- ☐ Confident
- ☐ Slightly confident
- ☐ Not confident at all

12

What is the most frequent type/defect seen in the clinic? *

- ☐ White demarked
- ☐ Yellow /brown demarcations
- ☐ Post-eruptive breakdown
- ☐ None

13

How often do you notice MIH affected teeth in the clinic?(chose one option) *

- ☐ Weekly basis
- ☐ Monthly basis
- ☐ Yearly basis

14

In your practice in dental school. Have you ever treated a patient with MIH? *

- ☐ Yes
- ☐ No

15

Which of the following factors would influence your choice of restorative materials?(multiple answers possible) *

- ☐ Adhesion
- ☐ Aesthetics
- ☐ Patient/parent preference
- ☐ Durability
- ☐ Remineralization potential
- ☐ Hypersensitivity
- ☐ Personal experience
- ☐ Research results

16

Which material do you use MOST in treating MIH molars?(multiple answers are possible). *

- ☐ Amalgam
- ☐ Composite
- ☐ Flowable composite
- ☐ Resin-modified glass ionomer
- ☐ Compomer
- ☐ Preformed steel crowns
- ☐ Other (please specify.....)

17

Do you think MIH is a clinically relevant problem? *

- ☐ Yes
- ☐ No

18

If Yes , In Which of the following aspects do you encounter difficulties? (Multiple answers are possible).

- ☐ Diagnosis
- ☐ Aesthetics
- ☐ Achieving adequate local anesthesia
- ☐ Determination of the restoration margins of the affected enamel
- ☐ Provision of adequate restorations
- ☐ Long-term success of restorations
- ☐ Achieving a result that feels good to the patient and allows normal function as well as good oral hygiene

19

Would you suggest including clinical training regarding MIH in your dental course? *

☐ Yes

☐ No

20

If yes ,which area(s) do you suggest to be taught more about ? (Multiple answers are possible)

☐ Diagnosis

☐ Etiology

☐ Treatment

☐ Other(please specify):.....
