

Supplementary Figure 8: confocal images of healthy colon sections. A. Immunofluorescence of a stained colon with anti-GILZ (green) and anti-GLP-1 (pink) Abs. Yellow arrows point at GILZ⁻/GLP-1⁺ cells, whereas white arrows indicate GILZ⁺/GLP-1⁺ cells. B. Immunofluorescence of a stained colon with anti-GILZ (green) and anti-5HT (red) Abs. Arrows point at 5HT⁺/GILZ⁺ cells. Nuclei were stained with DAPI. Scale bars: 100µm.
