

Supplementary Table 3. Overall response rate at week 12 in the intention-to-treat population according to detailed histology

Overall response rate by histotype, No (%)	
Carcinosarcoma	4
Stable disease	1(25)
Progressive disease	1 (25)
Not evaluable	2 (50)
Clear cell	10
Partial response	0
Stable disease	4 (40)
Progressive disease	4 (40)
Not evaluable	2 (20)
Germ cell tumours	2
Complete response	1 (50)
Progressive disease	1 (50)
Low-grade serous carcinoma	23
Partial response	1 (4)
Stable disease	10 (43)
Progressive disease	10 (43)
Not evaluable	2 (9)
Mucinous carcinoma	5
Stable disease	2 (40)
Progressive disease	2 (40)
Not evaluable	1 (20)
Sex cord-stromal tumours	14
Stable disease	4 (29)
Progressive disease	9 (64)
Not evaluable	1 (7)
Small cell carcinoma	4
Progressive disease	3 (80)
Not evaluable	1 (25)
