SUBJECT: SUBMISSION OF THE REVIEW REPORT
DATE: 22 OCTOBER 2025

Dear Editor-in-Chief,

Thank you for allowing us to resubmit a revised draft of our research paper for publication in *Environmental Science and Pollution Research* entitled “**Effectiveness of *Moringa oleifera*, Chitosan, and Alum as Adsorbents in Lake Water Treatment**”. We appreciate the time and effort that you have dedicated to providing your valuable feedback on our manuscript. We appreciate your insightful comment on our paper. We have been able to incorporate changes to reflect most of the important points that need to be addressed, as well as some information missing.

Comment: My reason in consideration for your paper is that we do not accept the use of "et al" nor "...&" in the bibliography. Please mention the whole list of authors for each reference.

Response: The authors really thank you for your comment and concern. The use of "et al" or "...&" in the bibliography has been removed, and the whole list of authors has been mentioned for each reference.

We look forward to hearing from you in due time regarding our resubmission and to responding to any further questions and comments you may have.

Yours sincerely,

Dr. YAT Ngandjui
