

Questionnaire on Factors Influencing Academic Achievement among Secondary School Students

In the name of Allah, the Most Gracious, the Most Merciful

Dear Students,

This questionnaire aims to examine the factors that influence the quality of academic achievement among secondary school students. It seeks to analyze various personal, social, environmental, and instructional elements that may positively or negatively affect your academic performance.

The purpose of this study is to gain a deeper understanding of these factors in order to improve the learning environment and ensure better educational outcomes for all students.

We appreciate your time and effort in participating in this research. Please note that all responses will remain confidential and used solely for academic purposes. Kindly answer sincerely and objectively, and feel free to share any comments or suggestions that may help improve the quality of education at your institution.

Thank you for your cooperation.

Please mark (X) in the appropriate box or provide your answer in the designated space.
