

Topic	Item	Checklist item description	Reported on Line
Title	1	The diagnosis or intervention of primary focus followed by the words “case report”	Title page—Title
Key Words	2	2 to 5 key words that identify diagnoses or interventions in this case report, including "case report"	Keywords
Abstract (no references)	3a	Introduction: What is unique about this case and what does it add to the scientific literature?	Abstract—Background
	3b	Main symptoms and/or important clinical findings	Abstract—Main symptoms; clinical findings
	3c	The main diagnoses, therapeutic interventions, and outcomes	Abstract—Diagnosis; intervention; outcomes
	3d	Conclusion—What is the main “take-away” lesson(s) from this case?	Abstract—Conclusions
Introduction	4	One or two paragraphs summarizing why this case is unique (may include references)	Background section
Patient Information	5a	De-identified patient specific information.	Patient demographics—Case presentation
	5b	Primary concerns and symptoms of the patient.	Presenting symptoms and signs—Case presentation
	5c	Medical, family, and psycho-social history including relevant genetic information	Medical/family history; medications—Case presentation
	5d	Relevant past interventions with outcomes	Relevant intervention (TAVR)—Case presentation
Clinical Findings	6	Describe significant physical examination (PE) and important clinical findings.	Physical/neurologic exam—Case presentation
Timeline	7	Historical and current information from this episode of care organized as a timeline	Figure 3 (timeline)
Diagnostic Assessment	8a	Diagnostic testing (such as PE, laboratory testing, imaging, surveys).	Laboratory tests; CT/CTA—Case presentation
	8b	Diagnostic challenges (such as access to testing, financial, or cultural)	Not applicable
	8c	Diagnosis (including other diagnoses considered)	Diagnosis—Case presentation
	8d	Prognosis (such as staging in oncology) where applicable	Prognosis and follow-up—Discussion
Therapeutic Intervention	9a	Types of therapeutic intervention (such as pharmacologic, surgical, preventive, self-care)	Management strategy—Case presentation
	9b	Administration of therapeutic intervention (such as dosage, strength, duration)	Vitamin K; supportive care—Case presentation
	9c	Changes in therapeutic intervention (with rationale)	Anticoagulation adjustment—Case presentation
Follow-up and Outcomes	10a	Clinician and patient-assessed outcomes (if available)	Clinical course; outcomes—Case presentation
	10b	Important follow-up diagnostic and other test results	Follow-up findings—Case presentation/Figure legends
	10c	Intervention adherence and tolerability (How was this assessed?)	Adherence/tolerability—Case presentation
	10d	Adverse and unanticipated events	Adverse/unanticipated event—Case presentation
Discussion	11a	A scientific discussion of the strengths AND limitations associated with this case report	Strengths/limitations—Discussion
	11b	Discussion of the relevant medical literature with references .	Related literature—Discussion
	11c	The scientific rationale for any conclusions (including assessment of possible causes)	Rationale—Discussion
	11d	The primary “take-away” lessons of this case report (without references) in a one paragraph conclusion	Key lessons—Discussion and Conclusions
Patient Perspective	12	The patient should share their perspective in one to two paragraphs on the treatment(s) they received	Not reported
Informed Consent	13	Did the patient give informed consent? Please provide if requested	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
