

Name and Surname: _____

Scenario: _____

Simulated participant feedback

Once the simulation sessions have ended, we would like to thank you for your participation and collaboration in the physiotherapy simulation program. To continue growing and helping the actors in the development of the sessions, we ask you to help us improve. That is why it would be good for us if you could return this document, duly completed.

1) Regarding the pilot test, could you specify what contributed or what was missing to help you improve your simulations?

2) What were students' recurring questions and/or comments throughout the different simulations?

3) Have you been asked a question that has put you off and/or that you feel you were not prepared to answer?

4) Does the scenario have all the information that was asked of you? Do you think that the information you had was sufficient to respond to the situation presented?
