

Cluster analysis of 13 volatile compounds detected by GC-MS in various germplasms of *Gastrodia elata*

Supplementary figure 6. Cluster analysis of 13 volatile compounds detected by gas chromatography-mass spectrometry (GC-MS) in various germplasms of *Gastrodia elata*. The x-axis is the *Gastrodia elata* sample, and the y-axis is the name of the volatile compound. The label on the right indicates the relative content of each volatile compound, with blue representing low relative content and red representing high relative content.
