

Supplementary Materials

Supplementary Table S1. The variance inflation factors (VIF) for covariates included in the multivariable Cox regression model

Variable	VIF
Gender	1.223252
Race	1.229913
Age	1.396262
Length of ICU Stay	1.277153
Diabetes	1.227925
Coronary heart disease	1.382844
Heart failure	1.247039
Hypertension	1.174626
Nephropathy	1.432052
Stroke	1.089229
Heart valve disease	1.158031
Antiplatelet drugs	1.39321
Anticoagulants	1.184909
Blood pressure-raising drugs	1.129817
Continuous renal replacement therapy	1.584811
Mechanical ventilation	1.383802
Blood Urea Nitrogen	2.417286
Serum Creatinine	2.458678
Hemoglobin	1.259237
Serum potassium	1.322292
Serum Sodium	1.238344
Platelets	1.515457
Prothrombin time	1.195745
SOFA Score	2.02944

Abbreviation: VIF, Variance inflation factor; ICU, intensive care unit; SOFA, the Sequential Organ Failure Assessment
