

Item No.	Correct answer	Primary distractor	Second distractor	Third distractor	Fourth distractor	Participant response	Score
01.	affection	hate	concern	amusement	nostalgia	[insert participant response here]	
02.	aggressiveness	fury	shame	love	terror	[insert participant response here]	
03.	agitation	anxiety	astonishment	aggressiveness	chastity	[insert participant response here]	
04.	agony	affection	happiness	astonishment	cruelty	[insert participant response here]	
05.	anger	nervousness	contempt	uncertainty	gratitude	[insert participant response here]	
06.	anxiety	nervousness	breathlessness	affection	impatience	[insert participant response here]	
07.	being touched	sleepiness	humiliation	breathlessness	disappointment	[insert participant response here]	
08.	breathlessness	love	agitation	confusion	trust	[insert participant response here]	
09.	concern	nervousness	disgust	joy	ecstasy	[insert participant response here]	
10.	confusion	dissatisfaction	agitation	fear	breathlessness	[insert participant response here]	
11.	courage	terror	affection	joy	ecstasy	[insert participant response here]	
12.	despair	stress	sexual pleasure	affection	pride	[insert participant response here]	
13.	elation	stress	disgust	love	amusement	[insert participant response here]	
14.	embarrassment	ecstasy	fury	affection	skepticism	[insert participant response here]	
15.	fear	panic	breathlessness	being touched	contempt	[insert participant response here]	
16.	fury	agitation	fear	contempt	egotism	[insert participant response here]	
17.	gratitude	compassion	agitation	happiness	breathlessness	[insert participant response here]	
18.	happiness	agitation	elation	respect	sexual pleasure	[insert participant response here]	
19.	hate	aggressiveness	envy	breathlessness	gratitude	[insert participant response here]	
20.	impatience	tiredness	relief	generosity	jealousy	[insert participant response here]	
21.	jealousy	agitation	being touched	disgust	happiness	[insert participant response here]	
22.	joy	concern	love	elation	lust	[insert participant response here]	
23.	love	anxiety	amusement	confusion	surprise	[insert participant response here]	
24.	nervousness	anger	hate	breathlessness	sexual pleasure	[insert participant response here]	
25.	panic	concern	affection	fury	being touched	[insert participant response here]	
26.	pride	happiness	concern	confusion	egotism	[insert participant response here]	
27.	relaxation	carelessness	confusion	ecstasy	anger	[insert participant response here]	
28.	sexual pleasure	ecstasy	amusement	terror*	chastity	[insert participant response here]	
29.	skepticism	uncertainty	despair	amusement	breathlessness	[insert participant response here]	
30.	stress	elation	contempt	disgust	envy	[insert participant response here]	
31.	tiredness	relief	sexual pleasure	love	chastity	[insert participant response here]	
32.	uncertainty	stress	being touched	despair	carelessness	[insert participant response here]	

Note. Distractors were chosen based on how often they were confused with each target emotion (Study 2). The Primary, Secondary, Tertiary, and Quaternary distractors correspond to items near the 95th, 75th, 50th, and 25th percentiles of confusability distribution, respectively. Asterisks (*) mark items filtered using a 60th-percentile threshold to avoid scoring repeated zeros for lower-ranked distractors.
