

UME to GME Survey

This survey assesses the level of preparation you received in undergraduate medical education (UME) and graduate medical education (GME) orientation prior to your starting your residency.

For the following questions training is broadly defined as formal lectures, modules, workshops, simulations, and/or residency preparedness course (Bootcamp).

Thank you for agreeing to take this survey.

Did you attend a residency preparedness course (bootcamp)?	☐ Yes -- GME ☐ Yes -- UME ☐ Yes -- both GME and UME ☐ No
--	--

Clinical competency 1

Did you receive training in "Completing clinical documentation in a timely manner"?	☐ Yes ☐ No
---	--

Where did you receive the training?	☐ UME ☐ GME Orientation (select all that apply)
-------------------------------------	--

How prepared were you for "Completing clinical documentation in a timely manner"?	☐ Not at all prepared: I could not perform this task without full guidance or support. ☐ Slightly prepared: I could perform this task with a great deal of guidance or support. ☐ Moderately prepared: I could perform with some guidance or support. ☐ Well prepared: I could perform with minimal guidance or support. ☐ Fully prepared: I could perform this task with no guidance or support.
---	--

Clinical competency 2

Did you receive training in "Counseling a patient on their medication changes"?	☐ Yes ☐ No
---	--

Where did you receive the training?	☐ UME ☐ GME Orientation (select all that apply)
-------------------------------------	--

How prepared were you for "Counseling a patient on their medication changes"?

- ☐ Not at all prepared: I could not perform this task without full guidance or support.
- ☐ Slightly prepared: I could perform this task with a great deal of guidance or support.
- ☐ Moderately prepared: I could perform with some guidance or support.
- ☐ Well prepared: I could perform with minimal guidance or support.
- ☐ Fully prepared: I could perform this task with no guidance or support.

Clinical competency 3

Did you receive training in "Selecting and dosing an appropriate pain medication for a patient with acute pain"?

- ☐ Yes
- ☐ No

Where did you receive the training?

- ☐ UME
 - ☐ GME Orientation
- (select all that apply)

How prepared were you for "Selecting and dosing an appropriate pain medication for a patient with acute pain"?

- ☐ Not at all prepared: I could not perform this task without full guidance or support.
- ☐ Slightly prepared: I could perform this task with a great deal of guidance or support.
- ☐ Moderately prepared: I could perform with some guidance or support.
- ☐ Well prepared: I could perform with minimal guidance or support.
- ☐ Fully prepared: I could perform this task with no guidance or support.

Clinical competency 4

Did you receive training in "Resolving or managing a nurse's concern about a critical finding"?

- ☐ Yes
- ☐ No

Where did you receive the training?

- ☐ UME
 - ☐ GME Orientation
- (select all that apply)

How prepared were you for "Resolving or managing a nurse's concern about a critical finding"?

- ☐ Not at all prepared: I could not perform this task without full guidance or support.
- ☐ Slightly prepared: I could perform this task with a great deal of guidance or support.
- ☐ Moderately prepared: I could perform with some guidance or support.
- ☐ Well prepared: I could perform with minimal guidance or support.
- ☐ Fully prepared: I could perform this task with no guidance or support.

Clinical competency 5

Did you receive training in "Recognizing a patient safety event"?

- ☐ Yes
☐ No

Where did you receive the training?

- ☐ UME
☐ GME Orientation
(select all that apply)

How prepared were you for "Recognizing a patient safety event"?

- ☐ Not at all prepared: I could not perform this task without full guidance or support.
☐ Slightly prepared: I could perform this task with a great deal of guidance or support.
☐ Moderately prepared: I could perform with some guidance or support.
☐ Well prepared: I could perform with minimal guidance or support.
☐ Fully prepared: I could perform this task with no guidance or support.

Clinical competency 6

Did you receive training in "Reporting a patient safety event"?

- ☐ Yes
☐ No

Where did you receive the training?

- ☐ UME
☐ GME Orientation
(select all that apply)

How prepared were you for "Reporting a patient safety event"?

- ☐ Not at all prepared: I could not perform this task without full guidance or support.
☐ Slightly prepared: I could perform this task with a great deal of guidance or support.
☐ Moderately prepared: I could perform with some guidance or support.
☐ Well prepared: I could perform with minimal guidance or support.
☐ Fully prepared: I could perform this task with no guidance or support.

Clinical competency 7

Did you receive training in "Incorporating patient social determinants of health in clinical decision making"?

- ☐ Yes
☐ No

Where did you receive the training?

- ☐ UME
☐ GME Orientation
(select all that apply)

How prepared were you for "Incorporating patient social determinants of health in clinical decision making"?

- ☐ Not at all prepared: I could not perform this task without full guidance or support.
- ☐ Slightly prepared: I could perform this task with a great deal of guidance or support.
- ☐ Moderately prepared: I could perform with some guidance or support.
- ☐ Well prepared: I could perform with minimal guidance or support.
- ☐ Fully prepared: I could perform this task with no guidance or support.

Clinical competency 8

Did you receive training in "Signing out an unstable patient to the covering team"?

- ☐ Yes
- ☐ No

Where did you receive the training?

- ☐ UME
 - ☐ GME Orientation
- (select all that apply)

How prepared were you for "Signing out an unstable patient to the covering team"?

- ☐ Not at all prepared: I could not perform this task without full guidance or support.
- ☐ Slightly prepared: I could perform this task with a great deal of guidance or support.
- ☐ Moderately prepared: I could perform with some guidance or support.
- ☐ Well prepared: I could perform with minimal guidance or support.
- ☐ Fully prepared: I could perform this task with no guidance or support.

Clinical competency 9

Did you receive training in "Recognizing a patient who requires urgent or emergent care"?

- ☐ Yes
- ☐ No

Where did you receive the training?

- ☐ UME
 - ☐ GME Orientation
- (select all that apply)

How prepared were you for "Recognizing a patient who requires urgent or emergent care"?

- ☐ Not at all prepared: I could not perform this task without full guidance or support.
- ☐ Slightly prepared: I could perform this task with a great deal of guidance or support.
- ☐ Moderately prepared: I could perform with some guidance or support.
- ☐ Well prepared: I could perform with minimal guidance or support.
- ☐ Fully prepared: I could perform this task with no guidance or support.

Clinical competency 10

Did you receive training in "Conducting a goals of care conversation regarding code status"?	☐ Yes ☐ No
Where did you receive the training?	☐ UME ☐ GME Orientation (select all that apply)
How prepared were you for "Conducting a goals of care conversation regarding code status"?	☐ Not at all prepared: I could not perform this task without full guidance or support. ☐ Slightly prepared: I could perform this task with a great deal of guidance or support. ☐ Moderately prepared: I could perform with some guidance or support. ☐ Well prepared: I could perform with minimal guidance or support. ☐ Fully prepared: I could perform this task with no guidance or support.

Feedback

What training in additional skill(s) would have better prepared you for your PGY1 year?
