IRB review outcome	Approved
Effective Date	28-01-2025
Expiry Date	27-01-2026
Documents reviewed	Proposal

In conducting this research, you are required to follow the regulation of GCP guidelines, the policies and procedure of RCHSP.

Compliance Notes:

- Human subject's privacy and research data/specimens confidentiality must be maintained. No human subject identifiable personal credentials can be shared out of the research team.
- Abide by the rules and regulations of the government of Saudi Arabia, NCBE, Central IRB and the IHC-GCP guidelines.
- Research participant confidentiality should be protected at all times.
- The data collected should only be used for this proposal.
- PI is to report all below as per specified timelines:
 - Any amendment to the project protocol, CRF, or other related documents, as soon as possible.
 - Termination of the study, as soon as possible.
 - Any serious unexpected adverse events, within 24 hours.
 - Any event or new information that may affect the benefit/risk ratio of the proposal, within 7 days.
- The research study can commence and we looking forward for receiving final report after completion.
- If the research is intended to continue beyond IRB approval expiry date, PI is to submit continuing review request and documents one month prior to the IRB approval expiration date.
