

24 Predetermined Points

Key Data elements to be looked in the BHTs

- 01) Age
- 02) Gender
- 03) Education & Occupation
- 04) Date & time of Bite
- 05) Admission date and time
- 06) Place of bite & Patient activity at the time of bite
- 07) Part of body bitten
- 08) Snake identification
- 09) Bite mark
- 10) Comorbidities
- 11) First aid details
- 12) Initial WBCT record
- 13) Essential Clinical monitoring
- 14) Fluid input/output chart
- 15) IV line inserted/not
- 16) General clinical Features
- 17) Local envenomation features
- 18) Systemic Clinical features
- 19) AVS treatment
- 20) Other treatment records (Premedication, other treatments)
- 21) Anaphylaxis reactions
- 22) Hospital outcome
- 23) Hospital outcome date
- 24) If transferred, indication for Transfer
